

Course Competency Report by Code

Code: BTC1

Life Science Theories and Concepts (BTC1)

Course of Study: SLA4 - Life Science
Course Level: Undergraduate
Course Division: Upper Division Major
Discipline: General Natural Science
Course Type: One Assessment
Department: Science

COMPETENCY #	COMPETENCY NAME	COMPETENCY TEXT
204.2.1	Molecular and Cellular Biology	The graduate has a broad understanding of the important concepts in molecular and cellular biology.
204.2.2	Biology of Organisms	The graduate has a broad understanding of the important concepts related to the biology of organisms.
204.2.3	Ecology	The graduate has a broad understanding of important concepts of ecology.
204.2.4	Evolution	The graduate has a broad understanding of evolution and the history of life on earth.
