

Course Competency Report by Code

Code: C190

Introduction to Biology (C190)

Course of Study: C190 - Introduction to Biology
Course Level: Undergraduate
Course Division: General Education
Discipline: Biology
Course Type:
Department: AOS Sciences

COMPETENCY #	COMPETENCY NAME	COMPETENCY TEXT
119.2.1	Living Organisms	The graduate analyzes the characteristics and classification of living organisms.
119.2.2	Chemistry	The graduate analyzes the basic chemical composition of cells and the basic processes that happen at the cellular level.
119.2.3	Cells	The graduate analyzes different types of cells based on their structures and biological functions.
119.2.4	Genetics	The graduate analyzes the biological basis for and patterns of heredity and gene expression.
119.2.5	Organisms and their Environments	The graduate analyzes interdependencies of organisms and their environments.
