Healthcare Statistics and Research explores the use of statistical data to support process improvement through health information research. Health information management (HIM) professionals use information systems to gather, analyze, and present data in response to administrative and clinical needs. This course has no prerequisites.

Competencies

- **Ethical Guidelines for Health Information Management (HIM) Research**
  The graduate analyzes ethical guidelines within health information management (HIM) research.

- **Introducing Research Strategies**
  The graduate evaluates health information research data for use in process improvements in a health information management (HIM) environment.

- **Health Information and Research Design for Health Information Data**
  The graduate evaluates data that is found in health information management (HIM) research to support leadership in improving standards and techniques for electronic health records (EHR) data collection, storage, and protection.

- **Health Information Data Evaluation and Application Skills**
  The graduate audits statistical data to support health information management department process improvement through data measurement and research.
Welcome to Healthcare Statistics and Research! When you are ready to begin the course, select the "Go to Course Material" button to access Soomo, the primary learning platform and where you will find your learning materials. Each topic in the course will relate to specific modules in Soomo. A pacing guide is provided as a suggestion for weekly goals and time management. Your mentor will help guide you in how to best schedule time for reading and coursework, help you prepare for the performance assessment, and provide feedback on your progress. Frequent communication with your mentor will help you succeed. Competency will be demonstrated by the successful completion of a performance assessment at the end of the course.

Assessments

Performance Assessment: Healthcare Statistics and Research

Status: Not Attempted
Code: ICP1
