IT Sourcing and Development in a Global Economy – C929

Overview
IT Sourcing and Development in a Global Economy examines the practice of sourcing and developing global IT projects from a management perspective. In today's organizations, leaders look for efficient and effective ways to deliver goods and services. This course will allow students to explore the strategic, operational, tactical, and security-related impacts to the organization of sourcing and supporting a global IT project. Students will cultivate a deep understanding of the documents, skills, and stakeholders needed for any given project and develop the ability to leverage these elements to achieve success. This course will also explore the ethical, cultural, and regulatory considerations surrounding sourcing and managing IT projects in a global space. There are no prerequisites for this course.
