Overview

The Nursing Education Capstone course provides the Academic Nurse Educator student an opportunity to apply previous course work towards the completion of an evidence-based curriculum proposal project. During this course students will build on previous work during their Nursing Education Field Experience course by planning the implementation and evaluation phases of their proposed curriculum change, innovation or improvement. The capstone proposal project represents a synthesis of competencies across the Masters Science of Nursing—Nursing Education degree program, which prepares them to lead, manage, and transform nursing education in diverse and complex academic settings.

Competencies

- Capstone
  The graduate integrates and synthesizes competencies from across the degree program and thereby demonstrates the ability to participate in and contribute value to the chosen professional field.

Learning

Getting Started

Welcome to the Master’s of Nursing Education Capstone course! In this course you will complete your Clinical/Practice Experiences and use the knowledge you gained from the experience to complete your Scholarly Curriculum Proposal Project. Once you have completed your Clinical/Practice Experiences, you will begin planning and writing the implementation and evaluation phases of ADDIE for your proposed course. You will also create an introductory video for the course you designed, assess the quality of your course by surveying key stakeholders, and demonstrate professionalism by completing your ePortfolio. Begin the Capstone course by reviewing the learning resources available to you as you complete your capstone tasks. Next, review the pacing guide and develop a plan for completing your course of study. You should complete the learning block activities in the order they appear to ensure successful completion of your final project tasks. Review the assessment directions and the assessment rubric to make sure you understand the requirements for each performance task. Check the course announcements for useful messages about the course and contact your course instructor for assistance as questions arise.
