Healthcare Financial Management provides an opportunity to apply strategic change management principles through the application of fiscal management and data analysis in a healthcare environment. The student will examine strategies to increase value, sustainability, and productivity in a patient-centric environment. This course has no prerequisites.

**Competencies**

- **Leading Change**
  The graduate proposes solutions that use strategies and processes to lead effective healthcare organizational change.

- **Basic Principles of Enterprise Risk Management**
  The graduate assesses risk, types of risk, the role of stakeholders, and the principles and approaches to minimize healthcare organizational risks.

- **Key Concepts of Quality Improvement**
  The graduate examines the theories, principles, data, and tools of quality improvement to determine how quality is defined, measured, assessed, and monitored in a healthcare organization.

- **Financial Management**
  The graduate examines how budgeting principles, capital, operating budgets, and cash flow budgets are used to make informed financial decisions in a healthcare organization.

- **Fiscal Management**
  The graduate manages healthcare organizational sustainability and productivity by using fiscal management tools, principles, and strategies.

**Learning**
