Overview

Population Healthcare Coordination provides an opportunity to examine population healthcare strategies and community collaboration to impact at-risk demographic groups. Students will apply strategic change management and data analysis to develop health initiatives for a large-scale population. This course has no prerequisites.

Competencies

- Communication and Collaboration Methods
  The graduate recommends methods of organizational communication to increase effectiveness of interpersonal communication, collaboration, and problem-solving among healthcare organizational stakeholders.

- Human Capital Management
  The graduate manages internal and external human relationships in healthcare organizations using management theories, methods, and techniques.

- Data Methodologies
  The graduate assesses a variety of analytical data methodologies to promote and advance organizational healthcare.

- Fiscal Management
  The graduate manages healthcare organizational sustainability and productivity by using fiscal management tools, principles, and strategies.

- Data Application
  The graduate evaluates the value, source, and appropriate application of the data that will affect risk, compliance, quality, policy, populations, finance, and economic factors within a healthcare organization.

- Using Predictive Analytics and Other Forecasting
  The graduate examines how future trends in healthcare delivery are anticipated through predictive analytics and other types of forecasting techniques that will inform decisions to improve healthcare outcomes while reducing costs.

Learning

Getting Started

Welcome to Population Healthcare Coordination! This course's area of study is about becoming a better leader and manager. You will explore the Discover section, complete the Engage activities, and complete the course assignment worksheets. The assignments are designed to build the skills you need to complete the performance assessment. There are also leadership development activities in the Assessment section that will help you improve as a leader and a professional. To help you track your progress in the course, use the pacing guide located in the Course Information section. To get started, click “Go to Course Material.”

Assessments

Performance Assessment: Population Healthcare Coordination
Status: Not Attempted
Code: ROP2
