Overview

The capstone is a student-designed project intended to illustrate the student's ability to effect change in the industry and demonstrate competence in all five program outcomes: transformational leader, value innovator, tactical manager, analyst, and integrated systems expert. Students are required to collaborate with leaders in the healthcare industry to identify opportunities for improvement in healthcare, propose a solution, and perform a business analysis to evaluate its feasibility. In addition, the capstone encourages work in the healthcare industry that will be showcased in the student's collection of work and help solidify professional relationships in the industry. This course has no prerequisites.

Competencies

Capstone

The graduate integrates and synthesizes competencies from across the degree program, thereby demonstrating the ability to participate in and contribute value to the chosen professional field.

Learning

Getting Started

Welcome to Health Leadership Capstone! The capstone is a student-designed assessment intended to showcase your knowledge and innovative leadership abilities developed in the health leadership curriculum. Successful completion of the assessment will demonstrate your competence in all five program outcomes: transformational leadership, value innovation, tactical management, analysis, and integrated systems expertise. To help you track your progress in the course, use the pacing guide located in the Course Information section. To get started, click "Go to Course Material."
