Overview

Accounting II is a continuation of the topics that were addressed in Principles of Accounting. Accounting II focuses on ways in which accounting principles are used in business operations, deepening the student's understanding of Generally Accepted Accounting Principles (GAAP), inventory, liabilities, and budgets. This course also introduces topics that are important for corporate accounting and financial analysis.

Competencies

- Financial Analysis
  The graduate analyzes financial statements and cash flows for a variety of organizations.

- Corporate Accounting
  The graduate integrates key concepts and processes in accounting for corporations.

- Liabilities
  The graduate performs accounting tasks related to financial liabilities for businesses.

- Inventory and Equipment
  The graduate performs accounting tasks related to inventory and equipment for businesses.

Learning

Getting Started

Welcome to CZC1, Accounting II! This course will help you prepare for the objective assessment by exploring resources in the Price and Haddock textbook, College Accounting. Starting with Chapter 16, you will read each assigned chapter and then review slides, take quizzes, and complete study questions. Competency will be demonstrated by the successful completion of the objective assessment.

Assessments

- Pre-Assessment: Accounting II (CZC1)
  STATUS: Not Attempted
  # OF ITEMS: 52
  TIME ALLOTED: 150 minutes
  CODE: PCZC
  TAKE NOW

- Objective Assessment: Accounting II
  STATUS: Not Attempted
  # OF ITEMS: 47
  TIME ALLOTED: 150 minutes
  CODE: CZC1

A score of Competent or Exemplary is required to pass all assessments. Passing a preassessment does not guarantee you will pass the high-stakes assessment. On objective assessments, you will be charged a retake fee for the third attempt and every attempt thereafter. For more information click here.
