Roles and Responsibilities in an Interdisciplinary Team helps students understand their role as an interdisciplinary team member. This course explores attributes of an effective team and challenges traditional professional boundaries in assembling an interdisciplinary team. The course also requires students to analyze the relationship of an individual’s expertise, knowledge, and skill base with the impact on care coordination and patient outcomes. There are no prerequisites for this course.

**Competencies**

- **Treatment Planning Methods**
  The graduate applies treatment planning methods that incorporate principles of care coordination, organizational awareness, working with diverse populations, and operating within scope and standards of practice to maximize productivity.

- **Role of Finance**
  The graduate identifies the role of finance in interdisciplinary teams as related to Medicare and Medicaid, third-party insurance, and value-based financial models to remain in compliance with insurance regulation.

- **Professionalism**
  The graduate applies strategies to demonstrate professional communication, behavior, and etiquette within an interdisciplinary team.

- **Evidence-Based Practice and Data**
  The graduate identifies how evidence-based practice (EBP) and the use of data are integrated and applied to professional practice and care coordination.

- **End-of-Life Legal and Ethical Conce**
  The graduate identifies end-of-life legal and ethical concepts, terminology, and legislation related to the autonomy of clients and their families involved in end-of-life care.

- **Introductory Compliance**
  The graduate identifies compliance, regulatory, and coding standards that impact practice across organizations and healthcare settings.

- **Decision-Making Principles**
  The graduate applies shared decision-making, critical thinking, and strategic decision-making principles related to interdisciplinary teams to meet shared goals.
The graduate applies communication, collaboration, and leadership strategies among interprofessional teams and within the community to promote teamwork and foster positive working relationships.

Learning

Getting Started

Welcome to Roles and Responsibilities in an Interdisciplinary Team! This course explores attributes of an effective team and challenging traditional professional boundaries in assembling an interdisciplinary team. When you are ready to begin the course, select the “Go to Course Material” button to access the course content and learning resources. Each course topic will be included via the course’s learning platform. A pacing guide is provided as a suggestion for weekly goals and time management. Your course instructor will inform you how best to schedule time for reading and coursework, help you prepare for the pre-assessment, and provide feedback on your progress. Frequent communication with your program mentor will help you succeed. Competency will be demonstrated by the successful completion of an objective assessment.
