Overview

This course ties together all the skills and knowledge covered in the business common core courses and allows the student to prove their mastery of the competencies by applying them in a simulated business environment. This course will help take the student's knowledge and skills from the theoretical to applicable.

Competencies

Integrated Business Skills

The graduate applies the competencies from across the business core curriculum, demonstrating the ability to lead the implementation of the mission, strategy, and goals of an organization.

Learning

Getting Started

Welcome to Business Core Capstone: An Integrated Application! In this course, you will apply the competencies you mastered in your business core courses within a simulated business environment. You will access the course materials through the WGU module-based Acrobatiq learning platform. The course materials include readings and videos, as well as access to the Marketplace simulation content. Plan your progress with the topics and pacing guide in the introductory unit of the course. Reach out to your course instructors with any questions. Competency will be demonstrated by the successful completion of a performance assessment.

Cohort Sign-up

Cohorts provide additional structure and support for challenging aspects of this course. In a cohort you receive specific homework assignments and meet online with mentors and students regularly to discuss the challenging topics.
